# **Making an Ethical Decision**

# Recognize an Ethical Issue

- Could this decision or situation be damaging to someone or to some group? Does this decision involve a choice between a good and bad alternative, or perhaps between two "goods" or between two "bads"?
- 2. Is this issue about more than what is legal or what is most efficient? If so, how?

### **Get the Facts**

- 3. What are the relevant facts of the case? What facts are not known? Can I learn more about the situation? Do I know enough to make a decision?
- 4. What individuals and groups have an important stake in the outcome? Are some concerns more important? Why?
- 5. What are the options for acting? Have all the relevant persons and groups been consulted? Have I identified creative options?

#### **Evaluate Alternative Actions**

- 6. Evaluate the options by asking the following questions:
- Which option will produce the most good and do the least harm? (The Utilitarian Approach)

- Which option best respects the rights of all who have a stake? (The Rights Approach)
- Which option treats people equally or proportionately? (The Justice Approach)
- Which option best serves the community as a whole, not just some members?
  (The Common Good Approach)
- Which option leads me to act as the sort of person I want to be? (The Virtue Approach)

## Make a Decision and Test It

- 7. Considering all these approaches, which option best addresses the situation?
- 8. If I told someone I respect—or told a television audience—which option I have chosen, what would they say?

## **Act and Reflect on the Outcome**

- 9. How can my decision be implemented with the greatest care and attention to the concerns of all stakeholders?
- 10. How did my decision turn out and what have I learned from this specific situation?
